Narrows Siphon No. 2 Contract 198

New York, N. Y.

Sealed bids will be received by the Board of Water Supply, at its offices, twenty-second floor, Municipal Building, Park Row, Centre and Chambers Streets, New York City, until 11 a.m., Eastern Standard time, on Tuesday, March 20, 1923, for Contract 198, for the construction of Narrows Siphon No. 2, a 42-inch, flexible-jointed, cast-iron submarine pipe-line about 8,800 feet long, with shore connections of 42-inch and 48-inch bell-and-spigot cast-iron pipes about 560 feet in length. This siphon is a portion of the Catskill aqueduct and will extend across the Narrows of New York harbor from 86th Street and Shore Road, Bay Ridge, Brooklyn, to Vanderbilt Avenue and Bay Street, Clifton, Staten Island.

The work consists principally of furnishing approximately 4,650 tons of submarine pipes, dredging a trench in which the pipe-line will be laid across the Narrows, including the shore ends, and refilling over the pipe-line. The land work is to include furnishing and laying about 330 tons of cast-iron pipe and special castings of various sizes, furnishing and setting two large meters, building chambers and manholes and doing other incidental work.

At the above place and time the bids will be publicly opened and read. Pamphlets containing information for bidders, forms of bid and contract, specifications, contract drawings, etc., can be obtained at the office of the Secretary at the above address, by depositing the sum of ten dollars ($10) in cash or its equivalent for each pamphlet. For further particulars apply to the office of the Chief Engineer at the above address.

Why You Should Advertise for Bids NATIONALLY

Nation-wide publicity reaches the greatest number of responsible bidders best fitted to do work in the most up-to-the-minute manner at lowest cost.

It makes local bidders figure closer and adopt the most efficient methods of doing work.

It is evidence of good business administration—an honest effort to furnish efficient service.

Buyers of bonds are naturally influenced by the efforts made to let contracts to reliable bidders at favorable prices.

Why You Should Advertise in ENGINEERING NEWS-RECORD—

Engineering News-Record is a consolidation of the three leading publications in the engineering and construction field—Engineering News, Engineering Record and The Contractor. It has a circulation of over 30,000 copies weekly—several times that of any other paper in the field—and includes among its readers almost every worthwhile contractor, engineer, manufacturer and dealer in the country interested in bidding on work outside his own vicinity.

Engineering News-Record is the one nationally recognized medium through which prospective bidders on work outside of their immediate localities keep regularly informed of the newest work on which bids are desired. Many rely entirely upon the announcements in this paper and, therefore, do not see those advertised elsewhere.

Over 3,000 Official Proposals Appear Annually—

Perhaps the best indication of what other cities and towns think of the results obtainable through the official proposals columns of *Engineering News-Record* is the fact that more than 3,000 of their announcements appear each year. Many of their letters telling of the savings realized as a result of their advertising in this great medium are further proof of the worthwhileness of national publicity through *Engineering News-Record.*

OFFICIAL PROPOSALS

Bids: April 11

Farmingdale-Manasquan Road

Freehold, N. J.

Notice is hereby given that sealed bids will be received by the Board of Chosen Freeholders of the County of Monmouth for the reconstruction of the Farmingdale-Manasquan Road, No. 34, (Section 1), with a reinforced concrete pavement for a distance of 1.91 miles and opened and read in public at the rooms of said board, Court House, Freehold, New Jersey on Wednesday, April 11th, at 11:00 a.m.

Drawings and specifications for the proposed work, prepared by George D. Cooper, Engineer, have been filed in the office of said Engineer at 60 Broad Street, Red Bank, New Jersey, and may be inspected by prospective bidders during business hours. The standard proposal form is attached to the specifications, copies of which will be furnished on application to the Engineer.

Plans and specifications will be furnished to prospective bidders upon payment of ten dollors ($10.00), which amount will be refunded upon the return of plans and specifications before the time specified for the opening of bids.

Bids must be made on the standard proposal forms in the manner designated therein and required by the specifications, must be enclosed in sealed envelopes, bearing the name and address of the bidder and name of proposed work on the outside, addressed to the Board of Chosen Freeholders of the County of Monmouth and must be accompanied by a certified check for a sum not less than ten (10) per cent of the amount bid on the work, payable to the order of the County Treasurer and a surety company certificate that said surety company will provide the bidder with the required bond, and must be delivered at the place and before the hour above named.

The Board of Chosen Freeholders of the County of Monmouth reserves the right to reject any or all bids if deemed to the best interests of the County so to do.

By order of the Board of Chosen Freeholders of the County of Monmouth.

BRYANT B. NEWCOMB,
Director.

Attest:
CHAS. E. COLE, Clerk.

OFFICIAL PROPOSALS

Bids: April 3

Dam Construction

Newburgh, N. Y.

Sealed proposals for the construction of dams will be received by the City Manager, Newburgh, N. Y., at his office in the City Hall until 12 o'clock, noon, on Tuesday, the 3rd day of April, 1923, and at that time will be publicly opened and read.

The work comprises the construction of two dams, an easterly earth dam with a concrete core wall and spillway, and alternate bids are asked for the construction of the second dam adjacent to the easterly dam, two alternatives providing for an earth dam with concrete core wall and the other for a reinforced concrete facing wall with earth backing. The work lies about two miles southerly of Newburgh at the point where the southerly branch of Silver Stream crosses under the New York City Aqueduct. While the bids are divided as between the east and west dam, the work will be let to a single contractor, the character of construction for the west dam being decided by economical construction as represented by the bids.

Each bid must be accompanied by a certified check upon an acceptable National Bank or Trust Company, made payable to the order of the city of Newburgh, or by cash to the amount of $5,000.

Copies of the plans and specifications may be examined at the office of the City Engineer of Newburgh, N. Y., and copies of plans, specifications, contract and form of proposal may be obtained at that office or at the office of the Engineers, Fuller & Harding, 170 Broadway, N. Y., upon the deposit of $15, of which $10 will be refunded if the said plans and specifications are returned in good condition.

W. JOHNSTON McKAY,
City Manager.

Bids: April 5.

Reinforced Concrete and Brick Pavement

Burlington, Vt.

Sealed proposals will be received by the City of Burlington on April 5th at five p.m. o'clock, standard time, at the City Hall, Burlington, Vermont, for the improvement of sections of Church, Pearl, Winooski Avenue Bank and Battery Streets. The work will consist of approximately 11,500 square yards of reinforced concrete, 1,400 square yards brick pavement and 4,900 lin.ft. concrete curb.

All bids must be upon blanks provided in the proposal furnished to bidders.

Bids must be accompanied by a certified check for three per cent (3%) of the amount of the bid. Plans and specifications will be on file at the City Clerk's office, City Hall, Burlington, Vermont, and at the office of the Engineer, H. Eltinge Breed, Room 600, 507 Fifth Avenue, New York City.

Copies of the plans and specifications may be obtained as above for three dollars ($3.00) per set.

No refund for blanks returned. Bidding blanks will be furnished free.

The right is reserved to reject any or all bids.

EDWARD CORLEY,
City Clerk.

OFFICIAL PROPOSALS

Bids: April 25.

Pipe

Glens Falls, N. Y.

Sealed proposals will be received by the City Clerk of Glens Falls, N. Y., until 8 p.m. of April 25, 1923, for the furnishing of sewer pipe, branches and fittings of the various dimensions and in the approximate quantities shown in the proposal sheet.

A complete description of the various items of the work will be found on the plans and in the specifications.

All proposals must be on the blank form attached to the contract and specifications and enclosed in an envelope, endorsed with the following words: "Proposal for furnishing the City of Glens Falls, with sewer pipe, branches and fittings under the 1922 Sewer Bond," sealed and addressed to the Common Council of the City of Glens Falls, N. Y.

Forms must be completely filled in and all amounts must be stated in writing as well as in figures.

All proposals shall be open for acceptance for thirty days from advertised date for receiving same.

All bids will be compared on the basis of the Engineer's estimate of the quantities of pipe, branches and fittings to be furnished as given on proposal blank for the work to be done under the sewer contract. The quantities referred to for the various items of work, stated on the proposal blanks, are only approximate and are to be used only as a basis for the comparison of the bids received.

Each bid must be accompanied by a certified check, payable to the order of the City, equal to five per cent (5%) of the amount of the proposal, as evidence of the good faith of the bidder, and to the effect that if the proposal of the bidder is accepted, the bidder will enter into a contract and furnish a satisfactory contract bond for the faithful performance of the work.

The contract bond will be in an amount equal to twenty-five per cent (25%) of the total amount of the bid. The check will be forfeited if the bidder whose proposal is accepted fails to execute a contract and to furnish a surety company contract bond acceptable to the Common Council within fourteen days from the date of notice of award of contract. Checks of unsuccessful bidders will be returned.

Plans and specifications for the work and the proposed contract may be procured from the Engineer, or will be mailed to prospective bidders at their request. A deposit of $25.00 for each set thereof will be required, which amount will be refunded upon the return of such plans and specifications in good condition.

Persons or firms submitting bids must be regularly engaged in the manufacture of or dealing in the materials required to be furnished by the specifications and shall, if required, furnish references of work of a similar character heretofore performed by them.

The right is reserved to reject any and all bids.

Dated, April 5, 1923.

LEON G. BOYNTON, City Clerk.

Bids: May 1.

Paving Construction

Miami, Fla.

Sealed proposals will be received by "The Commission of the City of Miami, Florida," at the City Hall in Miami, Florida, until 9:30 a.m., at the regular meeting of the Commission, Tuesday, May 1, 1923, for the construction of bituminous macadam paving.

The work will consist of approximately 158,268 sq.yd. of bituminous macadam paving and will be divided into two contracts. The bidder can bid on any or all of these contracts.

The improvements are to be constructed and payment therefor is to be made under Section 56 of the City Charter.

All bids must be upon blank forms provided in the proposal, specifications and contract.

Each bid must be accompanied by a certified check for 2½ per cent of the amount of the bid to insure the execution of the contract as provided by Section 56 of the City Charter.

The City reserves the right to reject any or all bids.

Plans and specifications will be on file at the City Hall in the office of the City Manager.

Copies of proposals, specifications and contract can be obtained from the office of Chas. W. Murray, Director of Public Service, on deposit of $10, which will be refunded to those who submit bona fide bids.

F. H. WHARTON, City Manager.

Sewer

Glens Falls, N. Y.

Sealed proposals will be received by the Clerk of the City of Glens Falls, N. Y., until 8 p.m. of April 25, 1923, for the construction of about six and three-quarters miles of sanitary pipe-sewers ranging in size from eight to eighteen inches in diameter, including necessary manholes, house service connections and force mains; about ten miles of storm water pipe sewers ranging in size from eight to twenty-four inches in diameter including all necessary catch basins, manholes, etc., and the installation of two sewage pumping stations, with all accessories and connections.

A complete description of the various items of the work will be found on the plans and in the specifications.

All proposals must be on the blank form attached to the contract and specifications and enclosed in an envelope, endorsed with the following words: "Proposal for the construction of sanitary and storm-pipe sewers and pumping stations under the 1922 Sewer Bonds," and sealed and addressed to the Common Council of the City of Glens Falls, N. Y.

Forms must be completely filled in and all amounts must be stated in writing as well as in figures.

All proposals shall be open for acceptance for thirty days from the advertised date for receiving same.

All bids will be compared on the basis of the Engineer's estimate of quantities of work to be done as given on proposal blank. The quantities referred to in the various items of work, stated on the proposal blanks, are only approximate and are to be used only as a basis for the comparison of the bids received.

Each bid must be accompanied by a certified check, payable to the order of the City, equal to five per cent (5%) of the amount of the proposal, as evidence of the good faith of the bidder, and to the effect that if the proposal of the bidder is accepted, the bidder will enter into a contract and furnish a satisfactory contract bond for the faithful performance of the work. The contract bond will be in an amount equal to twenty-five per cent (25%) of the total amount of the bid. The check will be forfeited if the bidder whose proposal is accepted fails to execute a contract and to furnish a surety company contract bond acceptable to the Common Council, within fourteen days from the date of notice of award. Checks of unsuccessful bidders will be returned.

Plans and specifications for the work and the proposed contract may be procured from the Engineer, or will be mailed to prospective bidders at their request. A deposit of $25.00 for each set thereof will be required, which amount will be refunded upon the return of such plans and specifications in good condition.

Bidders must also submit bids for furnishing both salt-glazed vitrified and machine-made concrete sewer pipe, branches and fittings for which separate proposals have been prepared, but the right is reserved to award the construction and pipe contracts to different bidders.

Persons or firms submitting bids must be regularly engaged in the lines or work required by the specifications and shall, if required, furnish references of work of a similar character heretofore performed by them.

The right is reserved to reject any and all bids.

Dated, April 5, 1923.

> An innovation at compilation of bids was introduced when the Indiana State Highway Commission opened proposals recently for approximately 40 miles of paving.
>
> M. L. Schuetz, an Indianapolis business man who bonds many of the contractors on state work, had a number of people take down the proposals as read. Thirty-four bidders submitted 43 proposals on nine projects, and nine minutes after the last bid was read, typed sheets of all bids were given out. Prior to the bidding Mr. Schuetz sent out blue prints on all projects to 300 contractors in surrounding states. The service is gratis and is greatly appreciated. The low bids, together with the highway engineers' estimates are sent to state highway commissioners of adjacent states and are useful for comparison.

CONSTRUCTION NEWS

The Construction Barometer

Probably Near Cost Peak — Private Contracts Heavy — Labor Cost Serious

SINCE March, 1922, construction cost has risen steadily and now, at 34 per cent above the minimum since the peak in 1920, shows the first signs of flattening. Materials men appear to realize the danger of a buyer's strike, and will prevent further increases if possible. The most serious factor is the increasing cost of labor. Although demand was slightly higher in April than in March, contracts for roads, bridges and public work in general fell off. The increase is chiefly in industrial building. The individual trends in several classes of construction will be shown here next week.

VALUE OF LARGE CONTRACTS LET IN THE UNITED STATES

CONSTRUCTION NEWS

The Construction Barometer

Cost Curve Flattened — All Metals Weaker — Contract Volume Given

THE most significant development is the softer tone of the iron and steel market. Unfilled orders on the books of the U. S. Steel Corporation were 114,823 tons less on April 30 than on March 31, and the premium has practically disappeared in price quotations. Lumber, cement and brick are generally stationary. Labor continues to rise. The general cost curve has flattened.

This week's charts show that contracts awarded this year are far heavier than last. Industrial work was particularly heavy in April. Value of contracts let for buildings, bridges, streets and roads for the first four months of 1923 are compared with the 1920-22 average over the same period. Later, construction will be analyzed by sections.
